Time of Inspection: 10:00 a.m. to 10:15 a.m.
Conditions: Bright, sunny, some snow on ground
Attendees: Self

I stopped briefly at the Georgia Pacific, B & J Project today to get an update on the activity at the site. The operation has not progressed much further than what I saw during my last inspection. However, an area to the north of the turnaround portion of the site has been disturbed, consisting of about another 1 acre of disturbance.
